

**Session 1
July 13-17**

**Session 2
August 10-14**

The Art of Mathematics summer camp is the combination of mathematical concepts applied to art, with fun and games included! We will discover the wonders of symmetry, tessellations, radials, scaling, and geometry to design beautiful art. With The Art of Mathematics, you are guaranteed to learn, have fun, and be proud of your creations!

The Art of Mathematics
